

# THE CHAMPION CHRONICLE

VOLUME 17

CHAMPION, (Alberta) THURSDAY, January 23 1936

NUMBER 39

## Jock's Waggin' Tongue

Vol. 1 Thursday, January 23, 1936 No. 30

Published in the interest of the residents of Champion and District.

Those fortunate owners of Buicks and Stewarts-Warner radios were amazed at the wonderful reception obtained of the recent British programmes. Mrs. Chas. Nelson is in the local hospital and progressing very nicely. Don't forget the date and hour of the Mc-Drug tractor and educational show. Monday next, Jan. 27th, 10 A. M. to 5 P. M. Valcan, talks on Diesel powered tractor, diversified farming, weed control, talking on Wednesday, Jan. 28th pictures and free entry. Rutherford of Yakima, Wash. is visiting Hattie, his niece.

Mr. and Mrs. McMurtry has been conservatively estimated to contain Let us tell you about 20,000 million barrels of the longer life gasoline oil. Just think what battery. We have that means to the them in an assortment Diesel tractor owner, of sizes to suit your requirements. about his new tractor, Vyn, Penn and North Star motor oils and grease. "Still the Best." Rod. Daigle is in the market for some horses for eastern shipment. With all the feed coming to town these days we can't help but think that you should grind it with a Mc-Drug hammer mill. The local Bridge Club have no respect for the midnight oil or late hours so we understand. Cocoa matts for this sloppy weather. Give the wife a break. Our store will be closed on Tuesday next observing the National Day of Mourning.

## The King is Dead

King George V who died at midnight Monday, January 20, ends a reign of twenty-five years. Beloved by his people the world over, his message over the radio endeared him to them still greater. His reign marked a great advance in modern achievements.

## Long Live The King

Prince Edward who now becomes King Edward VIII at the age of 41. He has made himself popular throughout the world.

## Proclamation

In recognition of our love and respect for His Late Majesty, King George V. Tuesday, January 28th is declared a Public Holiday.

Mayor and Council.  
Village of Champion.

## To Form Booster Club

A meeting was held on Wednesday afternoon at which it was decided to form a club for the purpose of furthering the interests of Champion and district, especially with reference to the forming of a hospital area. A general organization meeting to which all the citizens of Champion and district are particularly invited will be held in the Community hall Thu. day evening, January 30th, at 8 p. m. Be there.

The law society of Alberta urges that accident insurance be made compulsory for all Alberta motorists.

A bridge crew consisting of coker car and concrete mixing truck belonging to the Provincial Department of Public Works, is at work out east repairing a cement culvert that was left in a dangerous condition last fall. The men have been sleeping in a tent during the past ten days or so, but do not seem to mind it.

It is anticipated that driver's licenses, now to be issued annually, will bring in about \$200,000 each year to the government. There are about 100,000 cars operating in Alberta.

## "Amateur Night"

An "Amateur Night," under the auspices of the Champion Ladies' Aid, will be held in the Community hall on Friday, February 14th. Entries are to be confined to contestants from Champion and the surrounding district. Prizes will be offered as follows: Door prizes \$5.00, adult prize \$5.00, prize for intermediate, ages 7 to 17 \$3.00, prize for children under 6 \$1.00. The Ladies' Aid has had a reputation for sponsoring very successful local concerts, and you may be sure no pains will be spared to make this evening one of outstanding interest. The prices for admission are very reasonable—adults 35c, all children under 12, 15c. Be sure and keep the date in mind and come and applaud your favorite amateur entertainer.

President, Mrs. A. Baker

The annual meeting of the Champion Ladies' Aid was held in the church on Thursday, January 16th. The executive of last year agreed to continue in office for 1936, the officers being as follows:

President—Mrs. A. Baker.  
First Vice-President—Mrs. Williams.

Secretary—Mrs. G. Campbell.  
Treasurer—Mrs. McIntyre.

A vote of thanks was tendered these ladies for their untiring work on behalf of the Aid in the year just closed.

It was decided to put on "Amateur Night" in the Community hall in the near future, and the necessary committee was appointed. Chain tests will also provide a means of raising funds for carrying on the work of the Aid.

At the adjournment of the business meeting lunch was served by Mrs. Dawson and Mrs. Stephenson.

## Weather Conditions

Winter weather has proved consistent in this district this year. The thermometer has registered anywhere from 22 degrees below zero to zero for the past several weeks. There has been a heavy fall of snow, and although the first few fall-drafted badly, due to the strong winds, the last fall, of approximately three inches, has remained on the level, and it is the hope of the farmers that it will melt directly into the ground to provide spring moisture.

Stocks are being fed, the deeply-crosted snow making grazing possible only to horses, with the result that the feed supply is diminishing rapidly. Roads in most sections of the country are drifted badly. Warm weather would be appreciated.

## Wig-Wag To Be Placed At Crossing

The dangerous railway crossing in the town of Okotoks which was responsible for the death of a family of five several years ago, and has been described as a "death trap," will be made safe for motorists.

According to notice in the Canada Gazette, the Board of Railway Commissioners has agreed to contribute \$1,800 toward the cost of installing an automatic bell and a "wig wag" at the crossing. The balance of the cost will be made up by the province and the Canadian Pacific Railway Company.

Officials of the C. P. R. at Calgary said that safety precautions would be installed early in the spring before the heavy seasonal automobile traffic commenced.—Vulcan Advocate.

## French Query Service

Post Office Charges Different Prices For The Varying Questions

If you happen to be in France and want to know the date America was discovered, how to make good coffee or obtain a quick divorce, just dial S.V.P. on your telephone.

You will be answered by one of the employees of the new "If you please" service, just instituted by George Mandel, Minister of Posts and Telegraphs, Paris. At any hour of the day or night, M. Mandel's encyclopaedias will reply. Ordinary questions are answered for a sum of 6 to 15 cents. Twenty to 30 cents are charged for more difficult queries, and special terms are made for a real "poor".

You can also have an errand run by a postoffice cyclist who will deliver you drinks, flowers and anything you like to any address. This will be charged for at the rate of 35 cents in the day and 70 cents at night.

It is expected that plenty of practical jokes will put delicate questions to the new service. But the better the joke, the higher the bill.

## Synthetic Radium

Cornell University Builds Machine To Produce Rare Agent

At a cost of \$5,000 Cornell University has a machine capable of making artificial radium as a substitute for the real stuff, which cost \$400 a gram.

Completion of this machine, a cyclotron, the second of its kind in existence, was announced at Ithaca, N.Y. The Cornell cyclotron is already in operation.

The original cyclotron, a machine which uses a \$200,000,000 magnet to produce 10,000,000 to 15,000,000-volt rays was made by Dr. E. A. Lawrence at the University of California.

## New Science Explains Why So Many People Past 40

Feel That They're Slipping Losing Their "Grip" on Things

Many people "round 40 think they're 'growing old.' They feel tired a lot. 'Weak.' Have headaches, dizziness, stomach troubles.

Well, scientists say the cause of all this is in great many cases, is simply an *acid condition of the stomach.*

All you have to do is to neutralize the excess stomach acidity.

When you have one of these acid stomach upsets, take Phillips' Milk of Magnesia after meals and before going to bed.

Try this. Soon you'll feel like a new man. You'll be able to do your family 'hulk' ('PHILLIPS') or the convenient new Phillips' Milk of Magnesia Tablets in Canada.

**ALSO IN TABLET FORM:** Phillips' Milk of Magnesia Tablets are now on sale at all drug stores. They are the equivalent of a teaspoonful of the liquid form. They are Phillips' Milk of Magnesia.

**PHILLIPS' Milk of Magnesia**

**BACKACHE**

If you have backache, dizzy spells, headaches, do not neglect your kidneys. Take GIN PILLS for prompt relief at the first sign of these symptoms. You will feel better, look better.

—better, if your kidneys are functioning properly.

**GIN PILLS FOR THE KIDNEYS**

**BAR'S OWN SOAP**

Depends On Ancestors

The farm flock keeper is rarely if ever justified in keeping a larger flock than to the end of the second laying year. But to keep them even that long without a death loss that cuts seriously into profits, it is essential to have flock ancestors that have laid numerous large eggs for three or more years.

London uses more than 295 million gallons of water a day. 2134

## Victoria May See Bluenose

Captain Walters Considering Proposition To Visit Pacific Coast

Bluenose, queen of the fishing fleets, may leave her Atlantic home at Lunenburg, N.S., next summer to visit Canada's Pacific coast for the first time.

Captain Angus Walters, skipper of the racing schooner, said he was thinking over a proposition from a Victoria sportsman for a Bluenose visit to British Columbia waters but he hasn't made up his mind yet.

If he takes it up, the Pacific schooner will be Bluenose's longest voyage in her 13 years of fishing, racing and barnstorming.

Two years ago Captain Walters took her to the Great Lakes for the summer—her first taste of fresh water—and last year he went to England with her. That last voyage was the longest so far.

It came close also to being Bluenose's last. On the way home she ran aground but was towed out to the bottom and drove her reeling back to England for repairs that took three weeks.

But about the Pacific jaunt, "Well," says Angus, "I don't know. They paint a pretty rosy picture, but I'd have to sail north or seven thousand miles to get there. Anyhow, we'll see."

Bluenose is ready for the trip. After a thorough going over on her return to Lunenburg, she is as seaworthy and fast as ever, Captain Walters believes.

## Pioneer Newspaper Woman

Gold Rush Dies In Toronto

Faith Fenton, pioneer Canadian newspaperwoman whose accounts of the 1858 gold rush in the Yukon thrilled readers a generation ago, died at her home in Toronto after a brief illness with pneumonia. In private life she was Mrs. John N. F. Brown, wife of a well known physician of Toronto. They were married in the little log church at Dawson on the first New Year's Day of the 20th century.

Dr. Brown had gone in with the first civil commission to the Yukon and was the first secretary of that territory. Faith Fenton was there in a dual capacity. At the suggestion of Lady Aberdeen, wife of the governor-general, she joined the field force of the Victorian Order of Nurses. But she also had been commissioned to write articles for a Toronto newspaper.

She obtained permission from the government to camp in the Yukon to write. One of her most famous experiences concerned a hanging. It was scheduled for eight in the morning and the counter left for the noon hour. Faith Fenton wrote her story and sent it off.

Then it was remembered that the hanging was postponed and finally called off with the help of police she got a half-brained runner who caught up with the court several days later.

## Institution For Beggars

Scholars Taught The Correct Places And Manner To Beg

A "beggars' academy" has been discovered by the police in Prague, Czechoslovakia, the famous beer city.

An empty barn in the nearby village of Skerany was the seat of that institution which had two adult instructors and twenty-six boy "scholars."

The teachers told their pupils how to look miserable and "mained," and to behave as "blind" and "dumb-and-deaf." Practical exercises were held, and crutches, bandages and other beggar's appliances were purchased at general prices.

Lessons were also given for writing begging letters, and instructions were given where and how the individual boys had to beg.

The booty was handed over to the teachers, who retained one-half and distributed the other half among the boys.

## Need More Accommodation

Olympic Village In Germany Is Considered Too Small

Germany's Olympic committee, in charge of arrangements for the 1936 international sports contest to be held in the reich, conferred with the war ministry to consider additional accommodations for athletes from 48 nations. The committee learning that the nearly completed Olympic village is far too small.

Distinguishing goals from sheep is not always easy, for among the various forms there are some quite confusing to the inexperienced eye.

Water holes in some parts of Ethiopia are 50 miles apart.

Join the cheering thousands of "roll-your-owners" who are stepping-up their smoking pleasure by getting back to Ogden's.

You owe it to yourself to enjoy Ogden's Fine Cut, and you can, when it costs so little! Ogden's rolls best of course, with the best papers—"Chanticleer" or "Vogue".

**OGDEN'S FINE CUT**

Your Pipe Knows Ogden's Cut Pipe

## Terror Of The Air

New Toronto Can Travel Four Times Farther Than Fastest Shell

An aerial torpedo, or flying projectile, which can travel four times the distance of the fastest shell ever known, is one of two inventions which may revolutionize warfare.

It is the invention of a young man who, working unobtrusively in a laboratory at Queen Mary's College, London, England, is fast becoming recognized as the Marconi of the aeronautical world.

He is Philippe P. Nazir, aeronautical research student for the Government of India, who although only in his twenties, has already several astonishing inventions to his credit.

His researches make him a person of extraordinary interest to the representatives of other governments, many of which would be glad to know a few of the technical secrets he has locked up in his brain.

The German Big Bertha could send a shell only fifty miles.

Mr. Nazir claims that his flying projectile, travelling on its own fuel, without a pilot, could travel up to 200 miles at a speed of 300 miles an hour, and could be made to drop at any predetermined distance according to the amount of fuel placed inside.

This weapon would enable an air attack to be staged without warning.

Another far-reaching invention is a system of secret guns concealed in the tail of an aeroplane.

The guns are so arranged that immediately another plane comes behind within firing distance it is shot down before it has time to shoot.

A plane of this description, says Mr. Nazir, could attack a whole squadron and produce chaos among them.

The annual journey of the earth around the sun covers approximately 584,600,000 miles.

## Study Cosmic Ray

Scientific Effort To Be Made To Penetrate Cosmic Mystery

Dr. Arthur Holly Compton, University of Chicago physicist, and Nobel prize winner, announced the inauguration of scientific research effort to penetrate the mystery of the cosmic ray.

He said he would leave for Vancouver, B.C., to install a cosmic ray meter about the S.S. Orangi as one phase of the observations, which may be conducted in widely-scattered regions of the globe.

The enterprise, Dr. Compton said, has two goals. The first was an explanation of the daily variations in the intensity of cosmic rays. The second was to find out whether the rays, proved capable to go through 292 feet of lead, had greater intensity in the northern than in the southern hemisphere.

**YOU NEED A BUILDER?**

WHEN you're miserable and perhaps in need of a good tonic, weight below normal, and you feel tired-out and weak, follow the advice of Mrs. Francis Alcott of 242

Sackville St., Toronto, Ont., who remarks: "I want to say that I have used this medicine for many years and I have found it to be a most reliable and useful medicine. It has helped me in many ways and I can recommend it to anyone who is in need of a good tonic."

Twenty per cent more, or more, has been sold in Canada this year than last. This either indicates that good old Dobbin is "coming back" or that he is getting more particular about his footing. Either explanation points to better times.

## Death Stalks The Highway

A recent announcement of the intention of the Federal department of transportation to conduct a campaign to reduce the annual toll of life and limb taken by automobiles and trucks on the highways and roads of Canada should be welcome news to all who use motor-driven power for business or pleasure. The campaign comes none too soon.

Statistics, just published, reveal that in the United States last year over 30,000 lives were lost by accidents in which automobiles and their drivers were the agents of death, in addition to an appalling number who were injured in greater or lesser degree. This means that, roughly, one out of every 5,555 persons in the U.S.A. perished by the automobile in 1935.

No doubt, when the figures are published, it will be found that the automobile accident death rate in Canada for 1935 was comparable to the American loss after allowing for the difference in population of the two countries and the lesser condemnation of traffic. In 1934 the Canadian automobile casualty list totalled 3,108 deaths and 17,988 injured, some slightly.

Had 30,000 lives been snuffed out and hundreds of thousands injured in a single avoidable catastrophe in the United States last year, the nation would have gasped with horror. There would have been demands for investigation and the imposition of safeguards to prevent the possibility of recurrence of such an overwhelming catastrophe, but because these deaths and injuries represent nearly as many individual accidents, distributed throughout the year and scattered over a wide geographical area, it has been customary to dim them with a shrug of the shoulder and a comment about "some fool driver", except by the bereaved relatives and friends.

However, there are indications that citizens of the United States are becoming aroused at a condition of affairs which has become a national menace. This growing concern is largely due to efforts of government agents, corporations, police authorities and newspapers to acquaint the public with the facts and to drive home the state which foreshadow and negligent motorists incur by their conduct on the roads.

Already, it is reported, that these efforts, supported by an aroused public consciousness of individual responsibility, is winning results in sections of the country where intensive campaigns have been staged.

There is reason to assume that similar results can be achieved in Canada, if organizations and individuals will rally to the support of authorities who have endeavored to make the case. When an organized effort must be made to minimize the hazards created by recklessness and carelessness.

Recklessness and carelessness, in the final analysis, are the two factors responsible for the great majority of deaths and injuries on the highways on this continent, on either side of the international boundary.

For many of the accidents that occur on country roads and city streets recklessness must be indicted, and very often criminal recklessness. In this category falls the driver who travels at greater speed than road, climatic or traffic conditions warrant, the driver who passes other traffic near the crest of a hill or on a curve, the driver who cuts in front of another too soon and the driver who beats the train to the crossing.

With respect to the last-mentioned hazard it is interesting to note that figures just secured from the records of the board of railway commissioners show that in 1935, there were 242 automobile accidents at railroad crossings in Canada, resulting in the death of 114 and injuries to 304, an increase of 28 in the number of similar accidents in 1934, an increase of 33 in the number of deaths and 42 in the number of injured.

Carelessness, too, must be marked up as the contributing factor for a large number of these accidents. It may be carelessness while the wheel is in the hands of the driver on the road. It may be carelessness in parking on a road in the dark with lights out. It may be negligence in failing to regularly and carefully inspect the brakes, the tires and the lighting system or in remedying defects when discovered.

And last but not least there is alcohol. Tests by medical authorities and scientists have conclusively shown that the man carrying along a single drink is not as alert as he is normally without it and the man with several drinks inside him is a positive menace to himself, his passengers and those whom he meets or passes.

Alcohol, according to statistics, plays a major part in the appalling list of accidents on this continent. This is recognized in the posters which are being prepared for distribution as part of the federal government's campaign to ensure greater safety to the users of Canadian highways, one of which reads: "If you must drink, don't drive. If you must drive, don't drink."

## New Plating Alloy

Looks Like Pure Silver And Does Not Discolor

Development of a non-tarnishing plating alloy of silver and tin has been announced by Professor Lawrence E. Stout, of the Washington University chemistry department at St. Louis. The new alloy, composed

of 20 to 40 per cent, silver and the best of tin, looks like pure silver, polishes as well, wears better and does not discolor.

## Strengthening Air Forces

Canada Buying Four New 'Phanes

The air force defence of Canada is to be strengthened in the spring by four new "protection coastals" airplanes ordered by the Canadian government from the Blackburn Aircraft Company of England.

The new machines are of the biplane class similar to those supplied to the British naval air service. The machines have an unusual lifting power so as to carry 1,500-pound torpedoes or an equal weight in bombs. They also carry equipment for aerial survey and photography and for artillery spotting and reconnaissance. A supplementary fuel tank along in the torpedo crutches will give the machines a cruising radius of 1,000 miles.

The machines will be operated by the Royal Canadian Air Force.

## Depends On Ancestors

The farm flock keeper is rarely if ever justified in keeping a larger flock than to the end of the second laying year. But to keep them even that long without a death loss that cuts seriously into profits, it is essential to have flock ancestors that have laid numerous large eggs for three or more years.

London uses more than 295 million gallons of water a day. 2134

## ARE YOU NERVOUS, IRRITABLE, TIRED?

Do your friends secretly pity you, because you simply haven't the energy to do the things they do? Are you nervous, irritable, a victim of depression?

Then the answer may be PHOSFERINE. The better, PHOSFERINE, the great British tonic, is concentrated energy. You take only a few tiny, economical drops each day, and the effect is astonishing.

Almost from the first day life looks brighter. You gain new energy, sleep soundly. You wake thoroughly refreshed. Indigestion, constipation, pain and stiffness, and other weaknesses go... and stay gone.

Start taking PHOSFERINE now. Thousands who have suffered from general debility, rheumatic aches and pains, poor appetite and lack of pep and go, count the day they first took PHOSFERINE as the best day in their lives. PHOSFERINE is especially effective at all ages for combating nervousness, general debility, retarded development, nerves, anemic condition, indigestion, rheumatism, grippe, neuralgia, neuritis and loss of appetite.

Get PHOSFERINE from your druggist now—in liquid or tablet form—at the following reduced prices: 50c, \$1.00, \$1.50. The \$1.50 size is nearly four times the 50c size, and the \$1.50 size is twice the \$1.00 size.

# The Man Who Knows

Whether the Remedy You are taking for Headaches, Neuralgia or Rheumatism, Pain is SAFE in Your Doctor. Ask Him

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

BEFORE you take any preparation you don't know all about, for the relief of headaches or the pains of rheumatism, neuralgia or neuralgia, ask your doctor what he thinks about it. — in comparison with "Aspirin".

We say this because, before the discovery of "Aspirin," most so-called "pain" remedies were advised against by physicians. It was the stomach, or, often, for the heart. And the discovery of "Aspirin" largely changed medical practice.

Countless thousands of people who have taken "Aspirin" year in and out without ill effect, have proved that the medical findings about its safety were correct.

Remember this: "Aspirin" is used among the fastest methods of discovery for the relief of headaches and all common pains. It is safe for the average person to take regularly.

"Aspirin" Tablets are made in Canada. "Aspirin" is the registered trademark of the Bayer Company, Limited. Look for the same Bayer in the form of a cross on every tablet.

**Demand and Get "ASPRIN"**

Trains Chickens For Movies

The lack of trained chickens in Hollywood gave Ward William an idea. The actor has established the film colony's first school for fowl which may be film-struck but a little shy about it. Thirty chickens have been started on a course of education which he believes will fit them for every demand of the movies.

More persons met death in farm accidents than in any other occupation last year.

**Constipation Gone!**

Suffered since twelve years old. Frustrated by fruit-atives. Now I am well and healthy. I am now able to enjoy life once more. — Mrs. F. Williams, Montreal.

Containing extracts of APPLES, ORANGES, PEARS, PLUMS, and other fruits, Fruit-atives are natural—do not contain habit-forming drugs. They work to strengthen all organs of elimination. Their tonic effect helps bring fading, glowing health.

**Instant Relief From ITCHING**

Are you troubled with the itching tortures of eczema, urticaria, measles, or other skin affections? For quick and happy relief use pure, cooling, antiseptic, Itch D.D. Prescription. It gently soothes the irritated and inflamed skin, and restores the skin to its normal state. No harm—no cure. Clear, granular and silken—dries up almost immediately. Stages the most intense itching instantly. A 3¢ trial bottle, at drug stores, will prove its money back. D. D. D. Prescription is made by the owners of Itch D.D.

## FLEMING'S FOLLY

— BY — LAWRENCE A. KEATING

**SYNOPSIS**

Here is an absorbing and exciting story of fight against stubborn prejudice and a bitter personal malice. It is a story of hate and malice, of the kind that would turn men against each other.

The story opens with Link Fleming addressing a meeting of Boone County cattlemen, called together with the object of forming an irrigation company.

Roper Kilgo, the boss of the Rawhide and nearby ranges, who seemed to approve the plan, but was really opposed to it, had forced Book Turbey, a desert mining engineer, whom Kilgo knew would be called upon to give his expert opinion in favor of the scheme, to reveal his earlier endorsement, and declare that irrigation in Boone county so far as Hamilton's plan was concerned, was only a new-fangled way to waste money.

The meeting terminates, but Buzz Hamilton and his sister, Helen, Link and Kilgo are behind and Helen asks Fleming questions about his irrigation plan. This angers Buzz, who accuses Fleming of trying to influence his sister and, as he asserts, ruin her. Buzz shoots at Fleming in an uncontrollable fit of anger.

Butter Townsend, Link's foreman, is shot in the stomach, and Fleming is unhurt. Buzz is arrested. The doctor attends Townsend and dresses his wound. Kilgo Roper suggests taking Helen to her home, but she refuses and Fleming escorts her home instead. This incident causes Roper to declare open hostility to Fleming.

Link and Fleming form a partnership to provide irrigation for their own properties. Link goes home, and Roper to find Kilgo to get him out of him. Kilgo tries to induce Link to stop his scheme, and when Fleming refuses, gives a signal by taking off his hat, and Link is shot at from outside the house.

Link kills Kilgo out of the house. Buzz Hamilton is sentenced to three years' imprisonment for shooting Link Townsend.

(Now Go On With The Story)

CHAPTER VI—Continued

Both men froze at the commanding from Sheriff Ames Stephen. "We had enough gun-talk to-day," he remarked coolly. "What's the matter here, can't you men get along?"

"He called me a liar," Roper growled. "He did distort the truth a bit, according to my views. Helen," Link went on directly, "are you heading out to the ranch?"

"Why-uh, I'd sort of planned going that way, Helen," Kilgo interposed, rubbing his jaw.

She hesitated while the three men watched her. "Why yes, but there's something important I want to talk to Link about."

His face lighted slowly with a knowing grin. "I say, I'll come over tonight and have a good talk. Remember what I told you, Helen."

"About trying to buy me out so as to protect her from my bad influence?" Link grinned. "That's stretching the truth too, Roper. There's a queer shooting script at my place that night."

"Shootin'?" Helen exclaimed. "No, it's not about it," Ames Stephen growled.

"Probably some guy ridin' home drunk. Nobody got hurt."

Helen turned to him and bowed. "Thanks to poor marksmanship. Better get someone else next time, Roper."

He bristled again. "Are you tryin' to make out I put some guy up to that?"

Helen darted between the men, both of them rising to hot anger again. "Stop! Why, Link, whatever possessed you?" I know he wouldn't have anything to do with an attempted murder. That is too much, altogether for us both. Whatever you think of him, it's foolish to call a man a killer when you haven't the slightest proof. I—why, Link, I'm surprised at you!"

He stepped back in dismay. The suddenness of her defense of Kilgo brought a look of perplexity to the rancher's rather handsome face. Fleming avoided her accusing eyes. Seemingly he had overstepped himself. The heightening sense of trouble brewing, with Roper as his chief antagonist had, perhaps, caused him to be indiscreet.

"Aw, Link, let's forget it. Come on, what do you say?" The other shifted forward wearing a forced smile of friendliness. One hand was thrust out in the pretense of forgiving. Link eyed him an instant. Then his lips lowered and his voice was cold and controlled.

"That's just a grandstand play, and you know it. There's no friendship between us."

He turned on his heel and started off. But with a gasp Helen scurried after and seized his sleeve. "Link, please! Why can't we friends? If you want," she hinted with color

draining from her cheeks. "I'm afraid you will have made a choice. Roper is a good friend of Buzz, and he has known Buzz and me longer than—I have. I mean, well—almost anyone who is a man is willing to forgive and forget. Are you trying to make trouble?"

He hesitated, unwilling to pretend cordialship for one whose face and words were a more mark of his true feelings. But Helen's meaning was clear; she was insisting upon this handshake to restore peace. Perhaps she felt it her duty to bring them together on a new basis. Roper considered himself practically engaged to her. What was her real feeling about that?

A partnership in irrigation could not be successful unless there was harmony between them. And—Link's pulse sped faster—wasn't that genuine concern in the girl's eyes, concern for his well-being if he had an influential enemy in Kilgo?

He dropped himself for doing it, yet felt he must. Sheriff Stephen watched the tableau in silence. Fleming raised his hand, pressed Roper's briefly, then turned away. "Shall we start now?" he asked in a low tone.

As they rode off Link had an uncomfortable suspicion that something Kilgo had beaten him in the scene. He cast a sidelong glance at Helen and found her uncommunicative. When they reached Rawhide and were walking their horses down its main street Otto Pieper emerged from his bank. He sighted the girl and beckoned.

"I'm sorry, but I forgot I'll have to stop and talk to Mr. Pieper. You see, I want to find out just what the condition of the Triple H is, how much money we have, and all that."

He continued offering to talk, but felt instinctively that she might prefer to go on alone—or to have Roper, who rode with several other men a half mile behind, escort her home.

"By the way," Link said, drawing his buckskin near as the dismounted before the bank. "I don't want to press you about this irrigation business, but I'm wonderin' if you really want to come in on me. Maybe you'd like to think it over real careful, now Kilgo—er, folks are so set against it."

"She said her pony, then smiled at him and went. "I've decided to go to it. And I never back out of a thing, Link."

"He said that," it was true that Triple H had adjoining his Star Loop spread would benefit the most, was the local outfit to club with him for the erection of a dam to back up Silver Creek.

"When can we get down to bed look on this proposition?" he asked. "The thing should be started now so we'll get an alfalfa crop early next summer. If we wait till spring it'll be that much later to return."

She hesitated, then spoke what was on her mind. "Link, I didn't want you to have more trouble with Roper than I do. I don't want to shake hands with him. I came with you now to say that. Perhaps you don't like him, but after all, he is a friend of mine."

He flushed and made no reply. "But I'll tell him not to come to the ranch tonight. You come, Link, and we'll talk over all our plans for irrigation. Why not come early, for supper?"

The Box 50 owner, Benson and Sheriff Stephen were dismounting a few yards away. Fleming felt certain Kilgo had heard Helen's invitation. He could not restrain a thrill of triumph. "Fine. I'll sure be there!" Turning his horse, he started at a brisk run for the Star Loop.

Pieper, he knew, would attempt to talk her out of participating in what the conservative banker now regarded as a "wildcat" scheme. Otto's habit was to believe what the majority of local citizens believed; he had already long ago that such a policy kept him in the good graces of influential men who might otherwise have ousted him from the bank presidency. Link hoped that Helen would not state her intention to Otto. An for Kilgo, he felt certain now his man could not persuade her out of the partnership.

(To Be Continued)

**Africa's Oldest Motor Car**

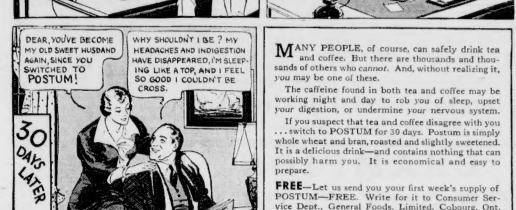

The oldest motor car in Africa, a four-horsepower vehicle made in France in 1894, and still in "running order" has been presented to the Johannesburg Municipal Museum. The solid black tires are the original ones.

**Fewer Saxophones Sold**

The moaning of the saxophone is decreasing as band manufacturers of Elkhart, Indiana, musical instrument manufacturing centers. They report an increased demand for clarinets and trumpets.

Mexico City got its name from the Aztec war god, Mexitli.

## Little Helps For This Week

Behold God is my salvation, I will trust and not be afraid; for the Lord Jehovah is my strength and my song. He also is become my salvation. Isaiah 12:2.

Still heavy is thy heart, Still sinks thy spirit down? Cast off thy weight, let fear depart. And every care be gone.

Go on in all simplicity; do not be anxious to win a quiet mind, and it will be all the quieter. But not examine so closely into the progress of thy soul. Do not crave so much to be perfect, but let your spiritual life be formed by your duties and by the actions which are called forth by circumstances. Do not make overmuch thought for tomorrow. God who has led you safely so far will lead you on to the end. Be altogether at rest in the loving hand Providence, which you ought to have in His heavenly Providence.

**Must Worry Wearer**

Evening Gown Covered With Thousands Of Tiny Mirrors

Six thousand tiny mirrors form part of a new evening gown of ink-blue chiffon. The mirrors, which are faintly tinted with blue, were sewn on by hand. It took four days to sew them on. The gown itself is simply cut, on long clinging line, with a tiny train which will cause moments of intense worry to a superstitious owner—a clumsy escort walking on the train would mean about a thousand years of bad luck!

**No wonder Purity Flour is a favorite for bread.** Its richness in nourishing gluten is supplied by Western Canada hard Spring wheat. A strong flour that goes farther—economical.

**STOP THAT IN A HURRY WITH**

**Groves' LOCAVORE BROMO QUININE**

You can't be certain with colds. They usually develop into pneumonia, which means many more victims. At the first sign of a cold take Groves' Locavore Bromo Quinine. It's a cold cure that's sure to stop that cold and bring you back to health. Ask for Groves'. They're in a white box.

Thursday, January 23, 1936

Four world records for speed were made in the trial run of Britain's "Silver Jubilee" streamlined steam train last September, a recent study of the record of the run reveals. The maximum speed for the journey between King's Cross and Grantham was 119 miles per hour. For a distance of 28 miles an average speed of 107.5 miles per hour was maintained, the distance being covered in 13 minutes 57 seconds. Forty-one miles were run at an average speed of 109 miles an hour and 70 miles at an average speed of 91.8 miles an hour. The train was hauled by a streamlined steam locomotive named "Silver Link" and consisted of 7 cars with a gross weight of 230 tons.

## A BIT "RATTLED"

A very nervous young man called at the house of the Dean. When the latter appeared, he said: "Excuse me, but is the Dean dizzy tonight?"

The tippie at the old Vambesin mine was completely destroyed by fire last week. Cause of the fire was unknown.

F. G. Beaumont, Barrister of Carmangay will be at the Chronicle office every Tuesday morning.

The regular meeting of the Champion Ladies' Aid will be held at the home of Mrs. Williamson, on Thursday, January 30th, at 3 p.m. All members and friends of the Aid are urged to be present, that the work of the Aid for 1936 may begin with enthusiasm.

The dance held in the Community hall last Friday night, and the auspices of the Royal Purple Ladies was a splendid success, everyone had an enjoyable time. The music was excellent. Miss June Sier won the \$5.00 and Mrs. M. Sisson won the \$3.00. The supper prize was won by Mr. Grover and the ballroom dance by Miss Phyllis Bastin and Jack Kulpas.

Mrs. Chas McLean was hostess on Saturday afternoon at an "At Home" held in honor of her daughter-in-law, Mrs. G. K. McLean. Tulsman roses with narcissi and anemones made a charming table decoration in the candlelit dining room where Mrs. Symington and Mrs. Art Jopling presided over the teas. Mrs. Luff, Mrs. M. Sisson, Mrs. Farris and Mrs. J. Walker assisted in serving the many guests. Misses Elsie McLean and Edna Or acted as door attendants.

## Local & General

Mrs. A. Miller returned from Vancouver where she attended her father's funeral.

Mrs. Marjorie Hopkins is on the Vulcan hospital staff relieving Miss Watts.

Mrs. Chprioniere, who has been ill for some time is able to be around again.

Oranges are cheap, nice size, 10c dozen at Campbell's.

Mrs. U. S. Alexander entertained at bridge on Monday evening.

Lawrence Rutherford, of Yakima, Wash arrived in town Tuesday night where he will visit his uncle, M. F. Hamilton.

Special this week end, Cold Lake Trout, fresh frozen 10c lb. at Campbell's.

Born—On Sunday, January 5th, to Mr. and Mrs. E. Aultman, Clyde, Alta., a daughter, Arlene Kay.

Champion Badminton Club entertained the Harmony Badminton Club on Wednesday, January 22nd.

Ladies! Big Bargain in House dresses, sizes 34 and 36 Special \$1.25 each at Campbell's.

Mr. and Mrs. A. Manhard have left the farm and are now living in Red Deer. They will visit friends here in the spring.

A number of adults are just getting over being confined to the house from the results of their recent vaccinations.

Jerry Fuller and his orchestra will play for a dance in the Community hall, on Friday, January 24th under the auspices of the Elks.

Only pick up games had been played on the curling rink up to Tuesday when a start was made on a draw between six rinks, the ice is in fair shape.

Pancakes, striped with Bacon and covered with Maple Syrup "Fit for a King's Breakfast." All the makings at Campbell's.

A number of people got up early Wednesday morning to listen in on the Proclamation ceremony which came fairly good on the older machines, but clear on the newer ones.

The editor and his wife were in Edmonton for the week end attending the convention of the Alberta Weekly Newspapers. The convention was well attended and enjoyable.

Recently a joint installation of the officers of the Vulcan Lodge No. 79 and the Champion Lodge No. 84 A. F. and A. M. was held to elect officers for 1936.

Special Mixed Nuts, while they last. 3 lbs. for 25 cents at Campbell's.

Mrs. Guy Voisey entertained at bridge last week in honor of her birthday. A pleasant evening was spent by the guests present. Mrs. Dupue and Mrs. McIntyre were the prize winners.

A welcome chinook that was on the way did not strike here till Wednesday morning to have any effect on the snow when together with the sun it started the snow to melting away.

Mrs. Charlie Nelson is a patient in the local hospital.

A novelty dance will be held at the Harmony school, Friday, March 6th, under the auspices of the Harmony Blue Bird ball team. A quilt will be raffled and a prize will be given for the ballroom dance. Supper will be served by the club.

Mrs. A. Kramer was a tea hostess on Thursday afternoon.

At all Christian Science churches next Sunday, the subject of the Lesson-Sermon will be "Truth." The following is one of the Scriptural quotations contained in the Lesson-Sermon: "Study to show thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of truth" (II Timothy 2:15). One of the correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, is as follows (Paraphrase): "The question, What is Truth, is answered by demonstration,—by healing both disease and sin and this demonstration shows that Christian healing confers the most health and makes the heart more true."

## The Fireside Philosopher

By ALFRED BIGGS

Strenuous is a bourgeoisie.  
Honesty is the only policy.  
How few become masters of their art.  
There is no greatness without good.  
Don't be good just because you're afraid to be bad.  
Love the sorrow of duty in the path of aspiration.  
Our acts are statements showing whether we are on the right or the wrong track.
